

MB-GP5

Productivity-improving for Polyolefin

Product Description

MB-GP5 is a Masterbatch product made from Polyethylene resin. This product is mixed from many different additives to provide synergistic effects, which contributes to improved productivity.

Performance

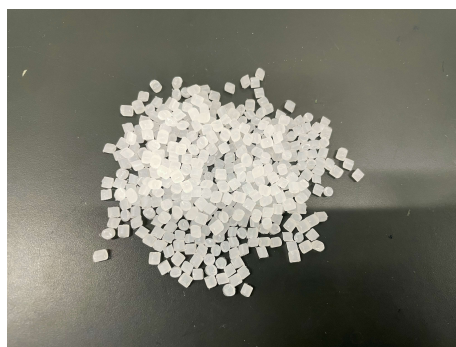

- Preventing bleed-out (powder blowing) phenomenon on the film surface.
- Optimal resistance to discoloration due to heat.
- Preventing the phenomenon of plastic pimples, gel and black spot appearing on the film surface.

Applications

Greenhouse film, Other agricultural film,
Packaging bags. (ex: Jumbo)

Product Form

Appearance: white pellet
Granularity: 0.5-0.7g/ 30 granins

Physical Properties

Property	Unit	Range
Bulk density	Kg/m3	450-550
Melt flow index	g/10min	1-10
Heating Loss	%	≤0.2

Package

20kg/kraft bag

Handling & Safety

In accordance with good industrial practice, handle with care and avoid unnecessary personal contact. Protect skin. Avoid release to the environment.

For more detailed information please refer to the material safety data sheet.
